MOHAMMED ALZAHMAH

Data Management & Governance Officer | CDMP Certified

Riyadh, Saudi Arabia | +966 58 050 0220 | mahommedalsh@gmail.com | linkedin.com/in/mohammed-alzahmah | alzahmah.com

PROFESSIONAL SUMMARY

Governance and compliance professional in a government Data Management Office. Serves as secretary of the Data Governance and Management Committee, running the full committee cycle from agendas and minutes to decisions, recommendations, and follow-up through to closure. Develops and documents governance policies, procedures, and frameworks; monitors compliance with national regulations, including the National Data Management Office (NDMO) standards, the National Data Index (NDI), and the Personal Data Protection Law (PDPL); provides guidance and awareness programs to departments; and prepares periodic reports and executive dashboards for leadership. CDMP certified, with a business intelligence background.

CORE COMPETENCIES

Governance Frameworks | Committee Governance & Secretariat | Policies & Procedures Development | Policy Documentation | Compliance Monitoring & Corrective Actions | Regulatory Compliance (NDMO, NDI, PDPL) | Governance Maturity Assessment | Advisory Support to Departments | Stakeholder Engagement | Periodic & Annual Reporting | Awareness & Training Programs | Executive Dashboards | Data Governance & Management

PROFESSIONAL EXPERIENCE

Data Management Officer — Feb 2026 – Present

Data Management Office, Shared Services Program (SSP) | Riyadh, Saudi Arabia

- Serve as secretary of the Data Governance and Management Committee, managing the full cycle from agendas and minutes to decisions and recommendations, and tracking resulting commitments and deadlines with departments through to closure.
- Contributed to developing and implementing the data management strategy, governance framework, plans, policies, and procedures in alignment with NDMO standards and the organization's objectives.
- Managed National Data Index (NDI) readiness across all NDMO data management domains, tracking maturity and compliance indicators, reviewing departmental evidence, and driving improvement plans and corrective actions through to closure.
- Conducted personal data protection reviews against the Personal Data Protection Law (PDPL) and supported classification of sensitive data.
- Designed and delivered governance workshops and awareness programs for employees and department managers, and guided departments on applying national data management requirements, raising departmental ownership.
- Designed and built the executive Data Management Office dashboard covering operational excellence, maturity, and compliance, and produced periodic executive reports and presentations for leadership and committees.
- Cataloged all SSP systems on the National Data Catalog platform, documenting 10,000+ technical attributes along with the business glossary, datasets, KPIs, and measures in a structured, easily retrievable form.
- Managed open data activities on the National Open Data Portal with a continuous intake process from departments, and handled public information access requests in line with approved policies.
- Coordinated data sharing requirements with internal departments and external entities, supporting the related policies, templates, agreements, and procedures.

Business Intelligence Officer — Aug 2025 – Feb 2026

Takamol Holding – Qiwa Platform | Riyadh, Saudi Arabia

- Owned the definition and documentation of labor market KPIs and calculation logic, building a governed metric dictionary that became the single source of truth across business reports.
- Established data quality controls for platform data through validation, completeness, and reconciliation rules in SQL and Power Query, profiling source data and escalating defects to owners for remediation.
- Documented data sources, business definitions, transformation logic, and report lineage, creating the metadata baseline used for impact analysis and handover between teams.
- Delivered governed Power BI dashboards with automated daily refresh built on standardized definitions, reducing manual preparation effort and improving reporting consistency.

Process Improvement Assistant — Apr 2024 – Dec 2024

University of South Florida | Tampa, FL, United States

- Analyzed catalog and usage data to improve classification, organization, and discoverability of library information assets, recommending metadata and cataloging improvements that increased retrieval accuracy.

EDUCATION

Bachelor of Science, Business Analytics and Information Systems – University of South Florida | GPA 3.95 / 4.00 — Dec 2024

CERTIFICATIONS

Certified Data Management Professional (CDMP) – DAMA International — Jul 2026
